

Bardon Hill Business Estate Feasibility Study

Terms and Conditions

1. You, the business registering via this web page, agree to pay £25 + VAT to Assured Communications, to commission a superfast broadband feasibility study for Bardon Hill Business Estate. Upon registering you agree to be invoiced this amount.
2. If the threshold of 40 businesses, each paying £25 + VAT, is not reached, Assured Communications, at its sole discretion, reserves the right not to proceed with the broadband feasibility study. Under such circumstances, it will refund any fees paid.
3. Assured Communications also reserves the right to proceed with the feasibility at a threshold lower than 40 businesses, making up the cost difference of commissioning the survey itself.
4. If after completion of the feasibility study:
 - a) no superfast broadband project is viable; or
 - b) A service is viable but insufficient businesses pre-register to take a service then businesses will be entitled to have their £25 (excl. VAT) converted to a credit against any other product or service supplied by Assured Communications.
